Yes, I want to donate to FORCES INTERNATIONAL to help defend the rights of ALL consumers against scientific misrepresentations and political repressions. I understand that FORCES works to preserve the consumer's "Freedom of Choice" and "Freedom of Association". I agree, the Freedom to Choose is my right. ANY prohibition (private or public), based on false science, is an assault on our civil rights and part of a political agenda aimed at the suppression of free choice. Through my donation, I support the cause of liberty, and I may be interested in getting involved in the campaign for the elimination/prevention of smoking restrictions.

Please fill the following form (the lines marked with asterisk are optional). Information sent to us will be kept confidential, and it will not be disclosed or published by any means without your expressed permission.
